Local Nursing Center Receives National Accreditation for Excellence in Quality Assurance and Performance Improvement (QAPI).

Newark, NJ – Broadway House for Continuing Care has received the Basic Quality Assurance and Performance Improvement Accreditation in 2017.

This accreditation is evaluated and presented by independent accreditor, Providigm, LLC. Through Broadway House's use of the abaqis Quality Management System, Providigm is able to verify that Broadway House is continually assessing the quality of care they provide to their residents against federal regulations and standards at an ongoing rate, and correcting identified issues.

"In the fall of 2016, CMS released revised regulation for skilled nursing facilities requiring a comprehensive program for Quality Assurance and Performance Improvement (QAPI)." says Andrew Kramer, M.D., Chief Executive Officer at Providigm, "The new regulations revolutionize the way SNFs manage quality assurance by requiring a comprehensive data-driven approach. Through their use of abaqis, Broadway House has proactively adopted this methodology and is an excellent example of a facility constantly monitoring the quality of life and care of their residents and implementing changes to make them even better."

"We are extremely proud of the work our care team has accomplished to achieve this accreditation," said Lois Beatty, Director of Quality and Regulatory Affairs. "We take quality seriously. We strive to give our residents the quality of life and level of dignity they deserve."

Broadway House for Continuing Care is NJ's only specialized long-term care facility for people living with HIV/AIDS that also addresses the co-morbidities of drug addiction and behavioral health. Broadway House maintains a 5 Star Rating (the highest) from the Centers for Medicare and Medicaid Services (CMS) and recently achieved a deficiency-free annual survey from the NJ State Department of Health.. Broadway House also offers sub-acute care, rehabilitation and therapy services at New Beginnings, an independent, in-house center. For more information, visit broadwayhouse.org

Providigm LLC creates quality improvement solutions for health care. Through Providigm's web-based systems and comprehensive training, providers are able to improve the quality of care and life of their residents.

Providigm's patented abaqis® Quality Management System is the nation's leading assessment and reporting system based on CMS's Quality Indicator Survey. abaqis goes far beyond survey readiness with capability to manage QAPI processes, Hospital Readmission tracking, and Customer Satisfaction measurement. Providigm's accomplished Research Team provides the scientific foundation and cutting-edge methodology behind its quality systems. For more information, visit www.providigm.com.
