★★★★★ 5 Star Facility

 Centers for Medicare & Medicaid Services (CMS)

Newark-based Broadway House earns exclusive Quality Accreditation

Sept. 2018 – Broadway House for Continuing Care has received Providigm’s Advanced Quality Assurance and Performance Improvement Accreditation for 2018 as a skilled nursing center actively performing Quality Assurance and Performance Improvement activities. Less than 2% of the skilled nursing facilities in the country achieve this advanced level of QAPI accreditation. Presented by independent accreditor, Providigm, LLC, the Advanced QAPI Accreditation confirms that the center is continually assessing items that affect the residents’ quality of life, such as pain, dignity, and choices that they have in the facility, and quality of care issues, like weight loss, infections, rehabilitation following acute injury or illness, whether there are enough staff to meet resident needs, and prevention of readmissions to hospital.

“We are extremely proud of the work our care team has accomplished to achieve this accreditation,” said James Gonzalez, President/CEO, MPH, FACHE, LNHA. “We take quality seriously. We strive to give our residents the quality of life and level of dignity they deserve.”

Broadway House is a not-for-profit specialty skilled nursing facility. It is the only facility in NJ caring for people living with HIV/AIDS. Broadway House also provides nursing and medical rehab for patients needing a stay after hospitalization. Quality is its priority and Broadway House is committed to excellence in providing compassionate care to everyone.

Providigm LLC creates quality improvement solutions for health care. Through Providigm’s web-based systems and comprehensive training, providers are able to improve the quality of care and life of their residents.
